About Me

I'm a Computer Science student at the Higher Institute of Applied Science and Technologies of Sousse (ISSATSO), specializing in cybersecurity and network technologies. I actively participate in Capture The Flag (CTF) competitions and have hands-on experience in reverse engineering, cryptography, and digital forensics. I am passionate about penetration testing, malware development, and red teaming.

Education

Higher Institute of Applied Science and Technology of Sousse (ISSATSO) <i>Bachelor of Computer Science</i>	2024 – Present <i>Sousse, Tunisia</i>
--	---

National Institute of Applied Science and Technology <i>Cycle Préparatoire Intégré</i>	2023 – 2024 <i>Tunisia</i>
--	--------------------------------------

Fattouma Bourguiba Secondary School <i>Baccalaureate in Technology (Bac Technique)</i>	2019 – 2023 <i>Tunisia</i>
--	--------------------------------------

Experience

Cyber Trace Sessions <i>Cybersecurity Tutor</i>	2024 – Present <i>Sousse, Tunisia</i>
---	---

- Provided tutoring in cybersecurity with a focus on OSCP-style penetration testing.
- Conducted training sessions on LFI/RFI, SQL injection, and buffer overflow techniques.

CTF Competitions (Team: Phr34k\$) <i>CTF Player & Challenge Author</i>	2023 – Present <i>Hybrid</i>
--	--

- Participated in multiple CTF competitions and always building my skills with training sites like Hack The Box, TryHackMe, and Root-Me...
- Authored CTF challenges and published write-ups since 2023.

Programming And Problem Solving	2022 – Present <i>Online</i>
--	--

- Developed tools and scripts using C, C++, and Python for cybersecurity challenges.
- Participated and won in multiple competitive programming and problem-solving contests.

Projects

Malware Development (In Progress)	2024 – Present
--	-----------------------

- Developing malware samples to study detection evasion and reverse engineering techniques.
- Practicing threat analysis in controlled lab environments.

Technical Skills

Languages: C, C++, Python, Bash, SQL

Cybersecurity: Penetration Testing, Reverse Engineering, Cryptography, Digital Forensics

Platforms: Linux, Hack The Box, TryHackMe, Root-Me

Networking: CCNA 1 Certified, Network Fundamentals

Content & Activities

Personal Site <i>Cybersecurity Blogs and write-ups</i>	2025 – Present <i>Online</i>
